

# Setting Up Application Environment

## Docker Installation

Date	14 NOV 2022
Team ID	PNT2022TMID46592
Project Name	Skill and Job Recommender Application
Team Members:	ANUSIYA.M HEMALATHA.S JEEVITHA.R RUPAVATHI.L

### Step 1:

Go to the official Docker website: <https://docs.docker.com/desktop/install/windows-install/>

### Step 2:

Click that button (Docker Desktop for Windows) and download will start and it takes few minutes to complete.

### Step 3:

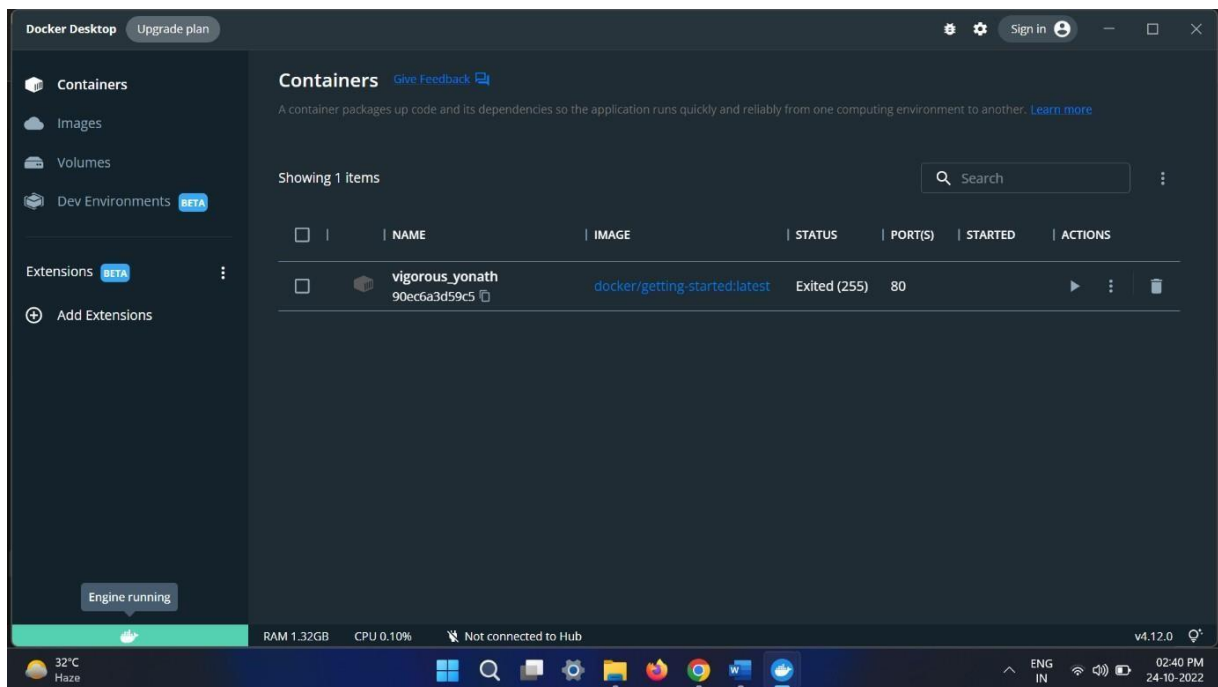

Go to downloads in browser (or) type **ctrl + J**, it will navigate to download page and double-click the particular docker file.

#### Step 4:

Now Installation is complete. This icon was added in your desktop. Double-click the icon to start the docker app, you can register and login that app to access those credentials.

#### Step 5:

Docker will start correctly, the left bottom side was shown in green color, docker will show the status of docker app working successfully.

#### Step 6:

Finally, the docker is installed successfully.
